

1. This is the homepage. Click Get Started to register

2. To create an account, input your first name, last name, email address and password. Then click Register

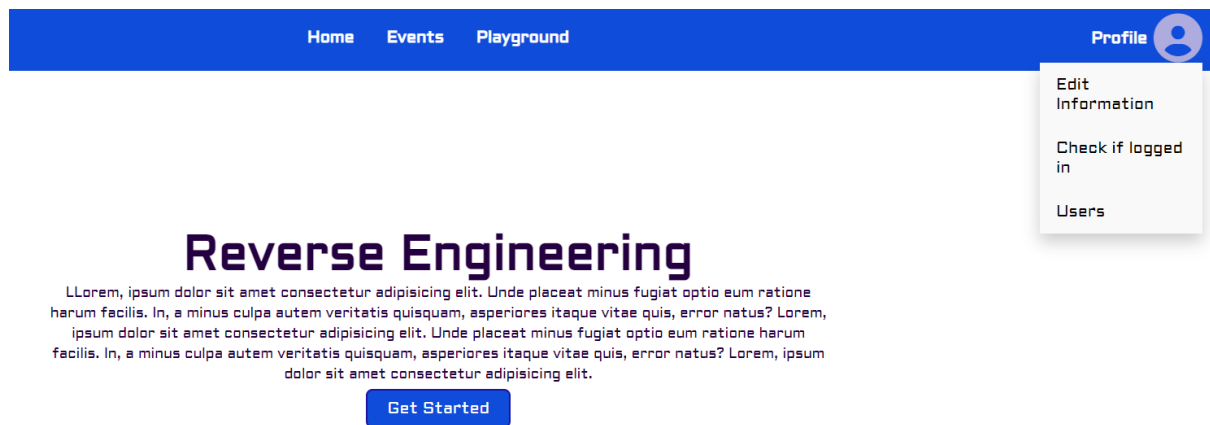

The screenshot shows a "Create an account" form. The form is a dark gray rounded rectangle with a white title "Create an account" at the top. It contains four input fields with placeholder text: "Enter first name", "Enter last name", "Enter email address", and "Enter password". Below the input fields is a blue button labeled "Register". At the bottom of the form, there is a link that says "Already got an account? Sign in". The form is centered on a white background.

3. If you have already registered, click Sign in then input your username and password in the login page

The screenshot shows a web application with a blue header bar containing links for 'Home', 'Events', and 'Playground', and a 'Profile' link with a user icon. In the center, there is a dark gray login card. The card has a 'Login' title, followed by input fields for 'username' and 'password'. Below these fields is a link that says 'Dont have an account? Sign up' and a blue 'Login' button.

4. To edit your account details, click on Profile then Edit information

The screenshot shows the 'Profile' page of the web application. The blue header bar has 'Home', 'Events', and 'Playground' links, and the 'Profile' link is active, showing a dropdown menu with options: 'Edit Information', 'Check if logged in', and 'Users'. The main content area features the title 'Reverse Engineering' in a large, bold, purple font. Below the title is a paragraph of Lorem Ipsum text. At the bottom of the content area is a blue 'Get Started' button.

5. You can edit your First name, Last name, email and password and click Edit to replace changes after each edit.
